## **REASON FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

As to claim 1, the cited prior art fails to disclose a non-obvious feature improvement for calibrating an antenna array which comprises components as specified in the claim, wherein the non-obvious feature comprises a power detecting unit for detecting a power from an estimating unit and an operating unit for detecting an amplitude ratio and phase rotation amount from outputs of the first and second channel estimating units.

As to claim 12, the cited prior art fails to disclose a non-obvious feature improvement for calibrating an antenna array which comprises components as specified in the claim, wherein the non-obvious feature comprises a first operating unit for multiplying a conjugate complex number of the channel estimation value on a same path outputted from the channel estimating unit; and a second operating unit for multiplying a conjugate complex number of the channel estimation value for a reception branch on a same path as one taken a correlation with a known signal conveyed through the second radio circuit section;

As to claim 14, the non-obvious feature comprises the same feature as mentioned in claim 1 above, in addition to the multi-paths limitation as specified in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
